

HOMEWORK 5

*Assigned: March 02**Due: March 16*

Due in-class on Monday, March 16.

Complete problems 6.8, 6.9, 6.12, 6.18, 6.19, and 6.38.

Note: For question 6.18 choice D, the if statement (and the line below it) should be indented one further step to the right.

Submit a single python document for the assignment. Non-code based answers to questions should be written as comments within the document. Do not comment out function definitions unless they contain an error that you cannot fix. The document must load without error.
